Belma, Ashulia, Savar, Dhaka

Summary

Aspiring AI Engineer with a Computer Science background and a strong interest in Artificial Intelligence and Machine Learning. Skilled in Python, data analysis, and predictive modeling, with foundational knowledge of machine learning techniques and modern AI technologies. Experienced in academic and practical projects involving technology-driven problem-solving, with a strong eagerness to develop intelligent solutions and contribute to real-world AI applications.

Skills

AI / ML	Claude Code, Gemini, ChatGPT, Antigravity Ai, Copilot, Scikit-learn, Pandas, NumPy
LANGUAGE	Python, JavaScript, C, Java
UI/UX DESIGN	Figma, Wireframing, Prototyping, User Flow, Responsive Design, Design System
DATABASE	MySQL
TOOLS	Git, GitHub, VS Code

Projects

A Classical Pattern Recognition Framework with Explainable Artificial Intelligence (XAI) for Multi-Class Lung Cancer Classification Using Medical Images 07/2026

Undergraduate Thesis (Medical AI / Machine Learning)

- Developed a hybrid framework integrating EfficientNetV2-S and Vision Transformer (ViT-B/16) for multi-class lung CT image classification.
- Applied lung segmentation, cross-attention feature fusion, feature selection, and machine learning-based classification with dynamic ensemble learning.
- Integrated Grad-CAM for explainable predictions, achieving **96.13% test accuracy** and **0.9914 ROC-AUC** across Benign, Malignant, and Normal classes.

Tech Stack: Python, TensorFlow, Keras, Scikit-learn, NumPy, Pandas, XGBoost, CatBoost.

Castle Black, *Password Manager* 03/2026 – 04/2026

- Developed a secure Flutter-based password manager with PIN and biometric authentication.
- Implemented password generation, vault management, credit card storage, and multi-source password import.
- Integrated Android AutoFill functionality and designed a user-friendly interface for secure credential management.

Tech Stack: Flutter, Dart, Android Kotlin, Secure Storage, Biometric Authentication

TeleDoc, *Telemedicine Platform* 10/2024 – 11/2024

- Developed a web-based telemedicine platform to support digital healthcare services and facilitate doctor-patient communication.
- Implemented application modules, routing, and database integration to manage platform functionality and data.
- Developed doctor management features to organize healthcare services and improve platform accessibility.

Tech Stack: PHP, MySQL, HTML, CSS, JavaScript

Professional Experience

SOLVIONIX IT, *Chief Operating Officer* 04/2025 – Present | Jamgora, Ashulia, Dhaka

- Led daily operations and strategic planning to ensure organizational efficiency and business growth.
- Oversaw cross-functional teams, improving workflow, productivity, and overall performance.
- Developed and implemented policies, budgets, and operational strategies aligned with company goals.

SOLVIONIX IT, *UI/UX Designer* 04/2025 – 08/2025 | Jamgora, Ashulia, Dhaka

- Designed responsive and user-friendly websites and mobile applications using modern UI/UX principles.
- Created wireframes, prototypes, and high-fidelity UI designs using tools such as Figma.
- Collaborated with developers and team members to improve usability, visual consistency, and overall user experience across digital products.

Education

Bachelor of Science in Computer Science & Engineering 06/2022 – 06/2026 | Ashulia, Dhaka, Bangladesh
DAFFODIL INTERNATIONAL UNIVERSITY
Result: 3.03 out of 4.00

Higher Secondary Certificate, *MILESTONE COLLEGE* 04/2020 | Uttara, Dhaka
GPA: 4.83 out of 5.00

Secondary School Certificate, *ASHULIA SCHOOL & COLLEGE* 02/2018 | Ashulia, Saver, Dhaka
GPA: 4.83 out of 5.00

Certificates

Master ChatGPT
UniAthena | October 2026
Credential ID: 4428-0995-2546

Developed practical knowledge of ChatGPT, including effective prompting, AI-assisted productivity, and real-world applications.

Foundations of Prompt Engineering
AWS Skill Builder (Amazon Web Services) | October 2026
Credential: Course Completion

Learned prompt engineering principles, zero-shot and few-shot prompting, advanced prompting techniques, and strategies for mitigating bias and preventing prompt misuse in foundation models.

GenAI Powered Data Analytics
Tata iQ – Forage | October 2026
Credential ID: 6ad1d9df9ecfc0cf9f2bc898

Completed the Tata Group Data Analytics Job Simulation on Forage, conducting exploratory data analysis (EDA) using GenAI tools, developing a no-code predictive modeling framework for customer delinquency risk assessment, and proposing an AI-driven collections strategy incorporating agentic AI, ethical AI, and regulatory compliance.

Building Effective Human-Agent Teams — Completion Badge
Claude Academy, Anthropic | 2026

Learned practical principles for building effective human-agent teams, including agent collaboration, shared context, task delegation, and human oversight.

Introduction to Model Context Protocol (MCP) — Completion Badge
Claude Academy, Anthropic | 2026

Learned MCP architecture and Python-based server/client development using tools, resources, and prompts.

Walmart USA Advanced Software Engineering
Walmart USA – Forage | October 2026
Credential ID: 6ad33776370ca66eb27057ba

Completed practical software engineering tasks involving Java-based heap data structure implementation, UML class diagram design, and relational database modeling using ER diagrams, strengthening skills in data structures, software architecture, database design, and problem-solving.

Basics of UI UX Strategy
UniAthena in partnership with Cambridge International Qualifications, UK | October 2026
Credential ID: 1404-8212-6628

Gained foundational knowledge of UI/UX strategy, user-centered design principles, and effective digital product planning.
